

SAURABH SINGH

Senior Backend Engineer | API Architecture | Distributed Caching | Scalable Systems

Vadodara, Gujarat, India | +91 83204 44237 | singhsaurabh0724@gmail.com | linkedin.com/in/saurabh-singh-backend

PROFESSIONAL SUMMARY

Senior Backend Engineer with 5+ years architecting, building, and scaling backend services and REST APIs for production platforms serving 500+ daily active users. Own the full backend lifecycle: API and data-model design, MySQL/PostgreSQL schema and indexing strategy, Redis-backed caching and event-driven pub/sub messaging, secure authentication (JWT/OAuth 2.0/Sanctum), and horizontally-scalable, load-balanced deployment with Docker/Docker Compose, Nginx, and AWS (EC2/S3/RDS). Working experience with Node.js/Express and Python/FastAPI for supporting services. Cut average API response time 40% through an indexing and caching redesign, and reduced post-release defects 30% by introducing structured code review and automated testing (PHPUnit, PestPHP, PHPStan). Comfortable owning services end-to-end for distributed, international engineering teams.

TECHNICAL SKILLS

Backend Architecture: REST API Design, MVC Architecture, Microservices Fundamentals, Event-Driven Architecture (Redis Pub/Sub), Horizontal Scalability, Load Balancing

Languages & Frameworks: PHP (Core & OOP, PHP 8.x), Laravel, CodeIgniter, Node.js/Express, Python (FastAPI)

Data & Caching: MySQL (Query Optimization, Indexing, Schema Design, Joins), PostgreSQL, Redis (Caching, Queues, Pub/Sub)

Security: JWT, OAuth 2.0, Laravel Sanctum, Secure API Authentication, Webhook Signature Verification

Infrastructure: Docker, Docker Compose, Nginx (Reverse Proxy & Load Balancing), AWS (EC2, S3, RDS), CI/CD (GitHub Actions), Git/GitHub

Testing & Process: PHPUnit, PestPHP, PHPStan, Code Review Workflows, Coding Standards

Integrations: Payment Gateways (Razorpay, PayU, Stripe), LLM API Integration (OpenAI/Claude)

PROFESSIONAL EXPERIENCE

Senior Backend Developer — Kode Creators Pvt. Ltd.

Dec 2025 – Present | Vadodara

- Own backend service and **API architecture** for US-based client platforms, driving design decisions and feature delivery in direct coordination with international stakeholders.
- Redesigned **MySQL indexing** strategy and introduced **Redis caching** across production services, cutting average API response time by **40%** and restructuring services into modular, horizontally-scalable components.
- Built secure API authentication (**JWT, OAuth 2.0, Sanctum**) and a **Redis pub/sub event-driven** layer to support real-time features across services.
- Containerized services with **Docker/Docker Compose** and configured **Nginx** for reverse-proxy, load-balanced, horizontally-scalable deployments on **AWS (EC2, S3, RDS)**; automated build/test/deploy with **GitHub Actions CI/CD**.
- Designed secure webhook/signature-verified integrations with payment gateways (**Razorpay, PayU, Stripe**) and third-party APIs; shipped a production **LLM (OpenAI/Claude)** integration.
- Cut post-release bug rate **30%** by establishing a structured PR review workflow, coding standards, and **PHPUnit/PestPHP** coverage with **PHPStan** static analysis; mentored 2+ backend developers.

Full Stack Developer — BIT Infotech

Feb 2024 – Nov 2025 | Vadodara

- Architected and scaled an **LMS/CRM backend** to 500+ daily active users using modular, horizontally-scalable **Laravel/CodeIgniter** services.
- Designed versioned **REST APIs** consumed by frontend teams, reducing integration bugs across 2 teams through clearer contracts.
- Contributed backend support for SEO/Core Web Vitals initiatives, part of a push that grew organic traffic **35%** within 3 months.

Website Developer — Dev Infotech

Jan 2021 – Dec 2023 | Vadodara

- Built and deployed 20+ production **PHP/MySQL backend systems** end-to-end as sole developer, from schema design through hosting/deployment.
- Integrated **Razorpay/PayU** payment APIs with secure transaction handling across multiple client industries, with zero major incidents.

EDUCATION

MCA — Parul University, Vadodara (2022 – 2024)

B.C.A — Sardar Patel University, Gujarat (2019 – 2022)

ACHIEVEMENTS

- 2nd Place, Parul University Tech Expo 2023 — Facial Recognition Attendance Tracker
- Delivered 100+ hours of structured live technical instruction; recognized for teaching quality and consistency
